

49 ARE RESCUED IN PLANE CRASH AT SEA

(NEA Telephoto)
HORIZONS UNLIMITED—Diagram shows the Pacific coastal area chosen by scientist Otis Barton in his attempt to dive 6000 feet below the surface of the ocean, nearly twice the existing record. Barton believes that his dive in the 700-pound steel "benthoscope" pioneers exploration of the deeps where scientists believe some of the world's richest resources are deposited. Barton is shown checking his underwater camera.

Public Enemy No. 1 Held After Killing Policeman

LOUISVILLE, Ky., Aug. 15—(UP)—Earl D. Birchem, 45, described by the Federal Bureau of Investigation as the "Nation's Public Enemy No. 1," was captured last night after he killed the policeman and critically wounded another.

Birchem, wanted in connection with several robberies in Nashville, Tenn., was held in jail here. No charge has been filed against him yet.

Dead is Patrolman John H. Tennyson, 32. Critically wounded was Patrolman John A. Ross.

Birchem, 45, was arrested after a gun battle with the policeman. Police chased Birchem for a traffic violation, which apparently led to the gun battle. Birchem refused to discuss it, and Ross was too critically injured to relate details.

Luther Williams, 37, Louisville, caught Birchem in his back yard, about 15 minutes after the shooting. Birchem was armed with two .32 caliber pistols.

Child, 3, Killed; Motorist Arrested

EAST LIVERPOOL, Aug. 15—Glenn W. Keener, 19, was held on an open charge today in the traffic death of a three-year-old boy and injuries to the lad's sister.

Police said Charles Wheelton was killed instantly and his sister, Diana, 12, suffered a broken arm when the Keener car struck them as they crossed the River road Sunday night.

Another sister, Harriet, was unhurt.

Columbiana County Coroner Ernest Sturgis said the boy died of head injuries.

They were children of Mr. and Mrs. Frank Wheelton of East Liverpool.

Kent Campus Growing
KENT, Aug. 15—Kent State university has added another 20-acre tract to its campus. The campus' total area now is 345 acres, nearly double the figure of a year ago.

Unemployment Noticeable But Ohio Outlook Bright

By FRANK J. COLLOPY
Administrator Ohio Bureau of Unemployment Compensation
COLUMBUS, Aug. 15—(INS)—The peak of employment is past for some time. Though the recent trend has been down, the decline has been moderate. No significant change appears in prospect in the near future.

Personal incomes and savings continue to run above last year. Unemployment, however, is higher. Considering the continued high payrolls—and relatively low unemployment when measured against an expanded labor force—there's no real basis for alarm.

WEST GERMAN REDS ON RUN

Right-Wing Parties Lead Socialists In Latest Voting

FRANKFURT, Germany, Aug. 15—(AP)—Western Germany has handed its right-wing parties a mandate to direct the new federal republic for the crucial next four years.

More than 24,000,000 Germans swarmed to the polls yesterday, in their first free election since Hitler took over in 1933. They handed Communism its fourth major defeat in western Europe since the war. France, Italy and west Berlin said "no" to the Reds in earlier elections.

Western Germany's rebuff marks the retreat of Communism to the river Elbe where the Red army stands guard.

Two Hurt In Crash At Crossing Here Saturday; 11 Fined

A man and his wife received injuries which sent them to the hospital at 5 p. m. Saturday when a car driven by Ilda Hatfield of Power, W. Va., slowed down for the Lisbon road railroad crossing on the edge of Salem, and a car, driven by Thomas Janosko of Cleveland, crashed into it from behind.

Injured were Helen Kovarik, 33, of Cleveland, who sustained a fractured left leg and multiple lacerations of the body. Her husband, Joe Kovarik, 33, of the same address, suffered lacerations of the face and head.

Neither Janosko or Miss Hatfield required hospitalization, but both cars were badly damaged, according to the state patrol.

The patrol reported 11 weekend arrests and fines. Harold Padgett, 19, of R. D. 2, East Palestine was fined two counts Saturday in Mayor Kenneth Gormley's court in Columbiana. He was fined \$25 and costs for operating a vehicle without a muffler and \$10 and costs for operating a vehicle without a tail light.

In Mayor Gormley's court others fined were Walter Zdonczyk, 31, of Wheeling, W. Va., Sunday, for reckless driving, \$15 and costs; Virgil Kain, 28, of Springfield, on Aug. 13 for speeding, \$10 and costs; Francis Rhome, 32, of Detroit, on Aug. 14 for reckless driving, \$25 and costs; Gordon Weir, 25, of Dorset, on Aug. 13 for speeding, \$10 and costs.

Arrests Made In Traffic Mishaps

Two auto accidents and two arrests were reported by city police today.

Ollie Milliken of Prospect st. ext. is being held today following his arrest at 1:10 a. m. Sunday on a charge of driving while intoxicated. He and his wife were in a car on W. State st. when it crossed to the left side of the street, struck a utility pole, traveled over a patch of lawn and struck a tree, police said. The car stalled on the sidewalk.

No injuries were suffered by Mr. or Mrs. Milliken but the front end of the car was demolished.

Leroy McGaffick of R. D. 3, Salem, was fined \$100 and costs by Mayor R. R. Johnson this morning on a charge of driving while intoxicated.

At 2:50 p. m. Saturday on E. State st. at S. Union ave. the car driven by Everett Bullock of Library, Pa. Lucile Abrams of Carrollton, a passenger in the Bosh car, was taken to Salem city hospital, treated for shock and bruises and released.

Bullock had no driver's license and was held at the city hall but later was taken to the city hospital for treatment of head injuries. A passenger in his car, James Austin of Pittsburgh, also was treated at the hospital for head lacerations.

CLEANUP OF JUNGLE INN IS PRESSED

Lausche Demands Removal of Mayor; 4-Point Attack Launched

YOUNGSTOWN, Aug. 15—(AP)—Gov. Frank J. Lausche, back in his executive offices in Columbus, today announced a four-point attack on the Jungle Inn to follow up Friday's raid by state liquor agents and designed to smash the notorious Trumbull gambling casino.

1. Issuance of a memorandum to Albert Woldman, director of the state building inspection department, to inspect the gambling hall and determine if it conforms to the state building code.

2. Issuance of a memorandum to State Fire Marshal Harry Callan to inspect the hall and determine whether it is a firetrap.

3. Orders to his secretary, John Peck, to prepare a citation against the mayor of Halls Corners (Charles Sedore) to show cause why he should not be ousted as mayor of Halls Corners (site of Jungle Inn).

4. Sending a wire to Trumbull Prosecutor William McLain requesting him to call the Trumbull common pleas court's attention to the conduct of many Jungle Inn offenders, especially John Farah, after they were released and give consideration to increasing their bond.

Governor Lausche said it has been brought to his attention that "these men in total disregard to law and order proceeded to take charge after their release and interfered with the investigators." (State liquor investigators.)

Sought Mayor Once Before
Concerning ouster of Sedore, in whose office local law enforcement at Jungle Inn is vested, it was recalled in Columbus this morning that a citation for ouster of Sedore had been issued from the governor's office last winter but was never served because Sedore remained in Florida many months.

It is now known, the governor was informed, that Sedore is back in this area. The citation issued today orders him to appear before the governor to show cause why he should not be removed.

The governor's telegram to Prosecutor McLain is a direct result of word reaching him that John Farah, Jungle's manager, had threatened the state liquor enforcement with "rough stuff" when they sought to take pictures for evidence at the gambling joint Saturday afternoon.

The governor's four-point program to follow up against Jungle Inn was announced by him this morning in Columbus. He said he expected the building department inspection arm and the fire marshal to proceed at once.

Lausche added: "It is reported to me that after these Jungle Inn men were released on bail they immediately proceeded to their haunt and there interfered with the investigation, committed assaults and took charge of the public highway in defiance of law and order."

"I call your attention especially to the conduct of John Farah (a part owner of the club)."

JAYCEE YOUTH TRIP SET FOR AUG. 29
The Youth Week Cleveland Indian baseball trip has been set for Aug. 29, Junior Chamber President Jim Jackson said today. Jackson talked with Rudy Shaffer, "Indians" business manager, yesterday to arrange for the new date. Earlier plans set the date for the auto migration of Salems' youthful fans on Aug. 26, but the afternoon game was switched to an evening contest.

Jackson said full instructions for assembling for the trip will be announced next week.

The Jaycee board of trustees will meet at 8 tonight at the clubrooms to discuss the change in Youth Week plans. Youth Week is Aug. 22 to Aug. 28.

Out Of Gas, Ship Goes Down Near Ireland; 9 Lost

SHANNON, Ireland, Aug. 15—(AP)—A U. S. bound airliner with 58 persons aboard was forced down on the dark waters of the Atlantic ocean early today when the pilot lost his way and ran out of gas.

A British fishing trawler raced to the scene, directed by radio, and picked up 49 survivors from the four-engined skymaster—

some swimming, others on the plane's life rafts.

British Royal Air force air-sea rescue craft continued searching the area, about 15 miles off the coast of Ireland, for the nine persons still missing.

Lost and nearly two and a half hours overdue, the pilot was trying to nurse his meager gas supply until he reached land under the guidance of another American airliner when his engine started cutting out and he had to ditch the plane on the ocean. The plane was on the Rome to Shannon leg of the flight.

NEW OLD AGE LAW DRAFTED

WASHINGTON, Aug. 15—(AP)—The house ways and means committee is putting finishing touches on legislation intended to insure about 42,000,000 of America's working people against want in their old age.

Moreover, the legislation—if it becomes law—would:

1. Boost by about 70 per cent the benefits being received by 2,500,000 persons now retired, or by their survivors if they have died. Increase by an average of 80 per cent the benefits of insured persons yet to retire, or to their survivors if they die.

2. Liberalize by about \$160,000,000 the federal participation with the states in granting public assistance, or home relief, to needy persons not covered by the insurance program. The federal government now is contributing about \$1,100,000,000 a year for this purpose.

3. Create a new category—the totally and permanently disabled persons—for protection under both the insurance and public assistance divisions of the social security program.

(In the insurance program the workers and their employers pay for what the workers get. Public assistance is direct relief based on need.)

4. Increase the payroll taxes that support the insurance program. The committee's new schedule calls for a boost from the present one per cent on employees' pay and employers' payrolls, to 1½ per cent on each next January 1, to 2 per cent each on January, 1951; 2½ per cent in 1950; 3 per cent in 1955, and 3½ per cent on each in 1970.

This is the most important social security law revision approved by the committee since 1939 when congress brought "survivors" of the insured into the program, along with providing benefits for the insured persons in their old age.

3,300 At Mullins Picnic Saturday

More than 3,300 attended the Mullins Manufacturing Corp. picnic for employees and their families Saturday at Idora park.

Free rides and dancing were enjoyed in the afternoon following a family-style picnic dinner. Games and contests for all were participated in, with prizes going to the winners.

The Salem Mullins softball team came out the loser, by a 9 to 4 score, in the game with their long-standing rivals, the Warren Mullins team. Jack King pitched for Salem and Pete Rebracca for Warren.

Registration Opens For Salem Trades School
Registration for Salem Trade extension classes may be made at the High school building for classes starting today, Thursday and Saturday. The schedule is 6:30 p. m. for Tuesday and Thursday and 8 a. m. Saturday.

The curriculum will cover all machine trades, draftsmanship, electrical trades, auto mechanics, building trades and special courses in English, physics, algebra, foremanship, shop arithmetic and public speaking.

BEFORE YOU RENEW OR BUY INSURANCE CHECK WITH REYNARD INSURANCE AGENCY, PH. 5607. MURPHY BLDG.

Transocean Airlines, owners of the chartered plane, said all the 47 passengers were Italians emigrating to Venezuela. Also aboard were an American crew of nine and two other American employees of the airline. Miss Ruth Nichols, famed aviatrix of the 1920's, was the stewardess.

The trawler Stalberg found the survivors scattered over a quarter square mile of ocean. Most of them were on three of the plane's big life rafts. Some were floating in life belts. Many were suffering from shock.

After scouring the area, the captain of the fishing boat headed for Killybeg, on the nearby Aran islands, to pick up a doctor. He radioed he would then proceed to Galway, where the nearest hospital is located.

The plane put down near the Aran islands, 15 miles off the west central coast of Ireland at the mouth of Galway bay. Galway is about 25 miles away.

The airliner was due at Shannon at 1:30 a. m. British summer time (7:30 p. m. EST. Sunday night). An hour and a half before the plane was scheduled to land the control tower here lost radio contact with it.

All aircraft in the area were alerted to be on the lookout for the missing plane.

Finally Crash-Lands
Shortly before 4 a. m., the pilot of a British Overseas airliner reported he had sighted the lost plane flying 30 miles out at sea, west of the Irish coast.

At about the same time, a Trans World airliner, bound from Shannon to New York, arrived on the scene.

The pilot of the Transocean plane, Capt. Edward Bessey of Wethersfield, Conn., radioed he was lost and running out of gas.

Capt. Charles Adams, at the controls of the TWA plane, radioed back: "Follow me." He swung around and started back for Shannon, with the Transocean plane following.

Fifteen miles from land, Bessey reported his engines were beginning to cut out.

"I'll have to ditch it," he told Adams.

Adams followed him down to within 300 feet of the water, where he ran into a cloud bank. Bessey continued on down and belied the big skymaster to a landing on the water.

Adams dropped flares to light the area and returned to Shannon, where he unloaded his passengers and prepared to lead the rescue search.

Meanwhile, the Stalberg reached the scene of the emergency landing and began picking up the survivors.

Galway police said they understood there were four women among the survivors.

Wounded By Thugs
CLEVELAND, Aug. 15—A 67-year-old watchman was wounded and his dog killed yesterday by one of three masked gunmen in an attempted robbery. Otto Schreiber, the watchman, was shot in the leg. He told police the men tried to rob the South Euclid Concrete Co. One of them opened fire when Schreiber threatened to turn the dog on them.

Quick, The Flit?

That investigation of lobbying which the White House said it wanted but never got has been ticketed for rush delivery all of a sudden. The reason for the hurry isn't hard to guess.

The "deep-freeze" Democrats urgently need something to take the public's mind off their recent preoccupation with mechanical refrigerating equipment supplied free. An investigation of lobbying, if handled right, will give them a chance to jump from the refrigerator into the fire.

The goal of any lobbying investigation undertaken by Mr. Truman's party was set by the party chief himself when he first mentioned the matter a long time ago. A lobbyist, he explained at the time, is a fellow who is trying to influence you to do something you don't want to do. If he's trying to influence you to what you want to do, he is not a lobbyist but a patriot.

So the Democrats investigation of lobbyists will be aimed at people who have tried to influence the government to go contrary to the "fair deal" line. The idea will be to divert public attention from the fireworks set off by investigators in the senate who have blundered into evidence that pressure on legislators is one of the least things Americans should worry about. One of the most potent instruments of power in Washington apparently is a bribing acquaintance with the right fellow from Missouri.

If this had been a Republican plot to put the chill on what Mr. Truman likes to call "the fair deal," it couldn't have been more damaging. The American people always have known about the danger of corruption of public officials. But when it becomes possible to corrupt them with a refrigerating gadget, the point of temptation has sunk to an all-time low. The corrupters will be trying it next with peanuts or French postcards. Wonder what those lobbyists who pressured legislators were using—lollipops?

Mao Has A Problem

Snap judgement about U. S. withdrawal from China is that the Chinese are to be allowed "to stew in their own juice." But a more considered judgement might be that for the time-being it's the Communist-inspired Chinese military and ideological faction which is going to be allowed to stew in the juice.

Those who insist that the United States has lost its influence in Asia because it is unable to rationalize a policy of helping the Chinese Nationalists assume that the Soviet union has gained influence because it is helping the Chinese Communists under Mao Tse-Tung. But Mao has a problem—the same problem which beset Chiang Kai-Shek and finally led to his downfall.

Like Mao, Chiang set out to organize a Chinese government that could govern. Like Chiang, Mao learned that the Chinese are a governable entity. Military prestige fades away quickly under the pressure of administrative difficulties. The Chinese, like all people who think they have everything to gain and nothing to lose by changing government, are bound by no ties of loyalty to a regime that fails to give them what they expected. If the United States has made a grave mistake in relinquishing responsibility for the Nationalist government headed by Chiang, the Soviet union may be making just as grave a mistake in assuming responsibility for the revolutionary government headed by Mao. It's on the defensive now. The United States, for a change, has the advantage of criticism.

Public Property

A decision by the Atomic Energy commission to release technical data in its files to American industry reflects a momentous policy decision inside the commission.

The material to be turned over to industry, on a trial basis, is not related to production of atomic bombs. It is information about processes and equipment developed in connection with the manufacture of bombs. Much of it is believed to have immediate value to business, if it can be turned over in such a way that it reveals no secret information about the military uses of nuclear fission.

Eventually, if this policy works on a trial basis, everything about nuclear fission must become public property. There must be no official secrets. There can be none anyway when other governments learn how to do what the United States succeeded in doing first. But it never has been clearly understood that this would be the Atomic Energy commission's ultimate policy.

Its decision to release technical data indicates, however, that the commission is thinking in the right direction. A permanent government monopoly over atomic energy might become the equivalent of state ownership and control of the entire coal, gas and electric industries.

Hitting Rock

There's no likelihood of a rush to north central Arkansas because Geiger counters have indicated radiant material in the Ozark country. But that's because people have lost their initiative. Or it's because they don't know the score. A hundred years ago there'd have been a uranium rush.

The first prospectors who discover important deposits of uranium in the United States will be closer to wealth than the sourdoughs who started the great gold rushes. There will be, however, an important difference. Uranium is strategic material. The government will nib in.

Even gold now is strategic material, and the government assumes the right to tell people what they may and may not do with it. But it's still profitable to find and to mine gold. And uranium is a more fascinating possibility than gold, oil, silver, coal, or gas—the things Americans always have dreamed about finding under the ground they own. From now on, pray for rock with uranium ore in it. Get a Geiger counter and win fame and fortune.

An informal social time occupied the hours at a meeting of Ellsworth Avenue club associates Thursday at the home of Mrs. Leroy Beery, Ellsworth rd.

The Helping Hand class of the Methodist church had a picnic at the home of Mrs. Luella Palmer, Ellsworth rd., yesterday.

THE STARS SAY:
For Tuesday, August 16
By GENEVIEVE KEMBLE

IT might be well to refrain from any definite attempt to bring to a close or to force pending issues until the planetary operations have time for incubation along constructive lines.

A sort of lull in procedures perhaps would allow projects, plans and policies to ripen, while things develop normally along already formulated ideas and wisely considered objectives. Judgment is likely to be somewhat uncertain or befogged, so that a suspended cohesive force might favor ripened constructive plans to come to a head unhindered.

For the Birthday

Those whose birthday it is, may find themselves anchored in a more or less obscure or uncertain state of mind, with opposing forces or influences working in opposite directions.

It might be advisable to pursue a hands-off policy, since there are constructive plans and measures already well on the way for skillful manipulation, with ingenuity and innovations up for logical development, minus any decidedly active interference from a possible false move or wrong mental slant.

The element of time, with logical and orderly steps of procedure, could convert a separative or opposing factor into a cohesive and amalgamating force, surprising and unpredictable, springing from the temporary delay.

A child born on this day might be slow in its mental processes, profiting by letting important decisions ride.

Come canning season, the kids will be getting into a mighty good jam—and then a bad one.

Traveling certainly is broadening, as the lady remarked sitting next to a fat man in a bus.

If you're afraid to take any chances you get what's left by those who aren't.

"I hope you enjoyed your vacation as much as we did, Mr. Walker—ours, I mean!"

Guarding Your Health

By DR. HERMAN BUNDESON

THE next time you go into your bathroom do what I did the other day. Take a look inside the medicine cabinet. The chances are that it is cluttered up with everything from half-empty bottles of medicine prescribed for illnesses, long since cured, to stray hairpins and cosmetics.

It is this catch-all character of the average family medicine chest which makes doctors regard it as more of a hazard than an ever-present help in time of trouble.

To be really useful, the medicine cabinet need contain only a few articles. Several rolls of gauze, a packet of sterile cotton, and some adhesive tape dressings are essential. There should also be a bottle of some mild antiseptic. A mild ointment for minor burns may be of value. Salves and ointments in tubes as a rule are preferred to those in jars because they remain sterile for a longer period of time.

Mild Antiseptic

A good mild antiseptic is a 2% solution of iodine and alcohol. It should be tightly stoppered and replaced at regular intervals because, if the alcohol evaporates, the solution becomes too strong. Medicines change when allowed to stand too long. They do not keep indefinitely. While these

chemical changes may not make the drug dangerous, they do cause the preparations to lose their effectiveness. Thus they are good for nothing but to take up space in the cabinet. This loss of potency, due to standing for several months, is not only true of many medicines but of vitamins as well.

Every preparation which is kept should be carefully labeled. If you do not know what a bottle or box contains, get rid of it.

Many medicines must be stored in a cold, dry place. The medicine cabinet in the bathroom is neither cold nor dry. Hence, it might be better to take the medicine cabinet out of the bathroom but, wherever it is located, it should be in a well-lighted place, so that labels on medicines may be easily read.

Aspirin is one preparation which may well be kept on hand. It is one of the safest medicines to use for pain relief until the physician prescribes other preparations if he thinks they will be more suitable.

Cause of Poisonings
Despite all the warnings of recent safety campaigns, the home medicine cabinet is still the cause of many accidental poisonings. Many of those could be avoided by careful labeling and the enforcement of a household rule that the label be read before administering any medicine. Children can and should be taught never to poke or pry into the cabinet and, as an added safeguard, dangerous drugs

You and Your Government

1% Saving In V. A.

If you're a veteran, you should be interested in your Veterans Administration, which employs an army of 186,000 persons and spends \$5,300,000,000 a year, 11 per cent of the national budget and more than any other Federal agency except the military establishment and the Treasury.

Here are some of the things the Hoover commission found wrong with the V. A.: "Excessive number of staff officers causing confusion of responsibility... entire structure too complicated... an excess of voluminous written instructions on internal methods and procedures which defy intelligent execution." (For example, the V. A. has eighty-eight different manuals, 665 varieties of technical bulletins, and more than 400 circulars of various kinds.)

Maybe you're a holder of one of the 7,000,000 life insurance policies with a face value of \$40,000,000,000 the V. A. has in force. If so, better tell your beneficiaries not to expect prompt payment if you die. On converted Veterans Administration insurance policies the average time required to process death claims is eighty days; "too many" claims remain unpaid for as long as a year. Private insurance companies pay from 71 to 82 per cent of such claims within fifteen days.

The V. A. has made some progress in digging out from under the terrific load of new veterans bequeathed it by World War II. The Hoover commission drew it a blueprint for further improvement. Nobody is suggesting that legitimate services, payments and benefits veterans be cut out, or even down.

But it was estimated that "there is room for considerable savings" in V. A. operations, particularly in the insurance field.

A saving of even 1 per cent in the annual expenditures of the V. A. would mean \$33,000,000. And that's more than \$1 a year knocked off the income tax bill of 40,000,000 taxpayers—including veterans.

Central park, in the heart of New York City, was set aside in 1858. It covers 1000 acres.

should be kept on the highest shelf, out of the reach of curious fingers.

The medicine chest can be useful if it contains the proper preparations, but it may also be a source of danger if it becomes a catch-all for pills, pins, used medicines, and cosmetics.

QUESTIONS AND ANSWERS

H. R.: If a person has thrombophlebitis and a part of the clot breaks loose, what would be the symptom?

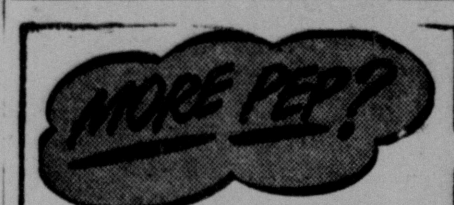

Answer: The symptoms in such a case would depend upon where the blood clot lodged. For example, if it lodged in the heart, it might cause such heart symptoms as shortness of breath, pain in the chest, severe weakness and anxiety. If it lodged in one of the blood vessels in the brain, it might cause such symptoms as unconsciousness, or paralysis of one side of the body.

A blood clot lodging in the lung tissue might cause severe cough with frothy, bloody expectoration, chest pain, and shortness of breath.

Columbiana Club Fetes Children

COLUMBIANA, Aug. 15.—Columbiana Rotarians are entertaining this afternoon and evening the children of Fairmount home, but since the withdrawal of Columbiana county from the agreement with Stark county for the maintenance of the home, the club has entertained the Columbiana county children, who have been placed in foster homes in the county.

A ball game between Rotarians and some of the children will follow the supper.

In previous years, the club entertained at the park annually the children of Fairmount home, but since the withdrawal of Columbiana county from the agreement with Stark county for the maintenance of the home, the club has entertained the Columbiana county children, who have been placed in foster homes in the county.

Township Officials to Meet

The Columbiana County Township Clerk's and Trustees' association will have its annual corn roast in Grace Evangelical and Reformed church here Tuesday evening at 7:30.

Pythian Sisters will be guests of Columbiana Lodge, Knights of Pythias, at its annual corn supper in Pavilion 1, Firestone park, Tuesday evening at 6:30.

Club to Add Members

The Kiwanis club will observe

past presidents' night and induct new members at its meeting this evening in Pavilion 2, Firestone park. There will be a picnic supper for club members.

Loyal Men and Women's class of the Christian church will meet at the home of Mr. and Mrs. Ralph Townsend Thursday evening at 8. Mr. and Mrs. Thomas Sayres will have charge of entertainment. Co-hostesses will be Edna Stouffer and Linnie Knopp.

Kenneth Kissell, son of Mr. and Mrs. Thomas Kissell, is enrolled in O. S. U. summer school for graduation Sept. 2.

Wedding to Be Aug. 21

Miss Dorothy Jean Prather, daughter of Mrs. Vivian Dishong of Winter Haven, Fla., both formerly of Columbiana, will be united in marriage next Sunday with Earl M. Starnes in First Presbyterian church, Winter Haven, at 4 p. m.

The bride will be given in marriage by her grandfather, O. C. Vansiver, a reception will follow at the home of Mr. Vansiver, where the prospective bride has been making her home.

The girls' schedule at Firestone park this week is: Monday, 10 p. m., aquacade practice; Tuesday, 1:30 to 4 p. m., tennis; Wednesday, 6 p. m., softball; Thursday, 1:30 to 4 p. m., archery; Friday, 1:30 to 4 p. m., softball practice. The aquacade is set for Sunday evening Aug. 28.

Navy Chaplain Here

Chaplain Carl M. Sittler and wife and two children, John and Miriam, are spending a couple of weeks of Chaplain Sittler's 30-day furlough at the home of Mrs. Sittler's sister and brother-in-law, Mr. and Mrs. Harry Eberhardt.

Chaplain Sittler has just completed two years of sea duty. During the past year, his ship, the Franklin D. Roosevelt, cruised 50,000 miles. On his return to duty at the naval hospital, Portsmouth, Va., he will be the senior chaplain in charge of the religious affairs of the hospital.

Pandora Rebekah lodge and Pandora lodge of Odd Fellows will have a coverdish corn supper in Pavilion 1, Firestone park, Wednesday evening at 6:30.

Dr. J. R. Moorehead, William Allen and Walter Simpson have filed as candidates for the board of education to fill the places of Earl Newell, Francis Kabler and Everett Warrick, whose terms expire. C. C. Calvin and Clyde Barrow are other members of the board.

Firestone Legion Post auxiliary has changed its August meeting from next Wednesday to next Tuesday evening. The meeting will be held in Pavilion 1, Firestone park at 8 o'clock.

Rev. Andrew Robertson, assistant to Rev. P. H. Welshimer of

First Christian church, Canton, will preach in the Columbiana Christian church Sunday at 11 a. m. and the remaining Sunday mornings of August.

On Honor Roll

James R. Robinson and Kenneth E. Kissell, Columbiana students in Ohio State university College of Arts and Sciences, are on the honor roll for having attained averages of 3.25 or better during the spring semester.

Drivers who are going to take boys to Cleveland for the baseball game next Tuesday are requested to contact Coach James W. Hall at Firestone park for instructions.

A congregational meeting will be held after the morning service in the Christian church, Sunday, to take action on the candidacy of Rev. J. Franklin Baxter of Sandy Lake, Pa., for the pastorate.

Wedding Date Set

The wedding of Miss Alice Steer, daughter of Mr. and Mrs. James Steer of North Lima, and Harold Frederick Wilson, son of Mrs. Erna Wilson of Vine st., Columbiana, and the late Lloyd R. Wilson, will take place at the Steer home, New Springfield, North Lima road, Saturday evening, Aug. 20, at 7 o'clock.

The Valley Golf club dining room is being enlarged to double its present size to accommodate 150 diners.

Owner Of Metal House

Is Jolted On Entering

PLYMOUTH, Eng., Aug. 15.—E. R. Hyatt stuck the key in the door of his new metal house and when he was jolted off the stoop. He picked himself up and tried a window. He went down again in a shower of sparks.

He peered into the kitchen and steam was pouring from a cold water faucet.

"Stand back!" he warned his wife and children. "This calls for an expert."

The local housing authority repair man disconnected the power line and inspected the place. He found a bare wire rubbing against the frame of the metal house—which should have blown a fuse, he said, but didn't because a clip holding the ground wire had worked loose.

The Hyatts decided to go to a hotel for a few days.

FARM NEWS OF LOCAL INTEREST...

Potato Growers

Potato growers of Columbiana and Mahoning counties will meet at the farm of Triton Brothers, four miles west of Lisbon on Thursday, Aug. 25, at 7 p. m. to see the potato fields on the farm and the late potato test plots being conducted by the Extension service in cooperation with the growers.

This is the second twilight meeting held by the growers this summer, the first having been at the farm of Ben Weingart near Leetonia, on July 11.

Conservation Event

A number of Columbiana county farmers will attend the Ohio Conservation Field day and plowing matches at the Apple Creek State Farm near Wooster on Aug. 23 and 24.

At the noon hour from 12 to 1 each day a speaking program has been arranged. On Tuesday, Aug. 23, H. H. Bennett, Chief of the United States Conservation Service, Washington, D. C., will be the principal speaker. On Wednesday Charles F. Brannan, Secretary of Agriculture, Washington, D. C., will speak.

The event is sponsored jointly by the Ohio Federation of Soil Conservation district supervisors in cooperation with the United States Soil Conservation Service, the Ohio Agricultural Experiment station, and the Agricultural Extension Service at Ohio State university. Planned is a purely educational event, visitors to the farm will see over 2,100 acres laid out in a conservation program.

Bang Tests

Information has just been received by dairymen of Columbiana county that under the new Brucellosis law passed at the recent session of the legislature no indemnity can be paid for cattle reacting to the Bang test after Oct. 27, 1949.

Indemnity for reactors was terminated on July 27 for all counties not under an area test. In Columbiana county area testing started in 1948 and the first area test is nearly completed. The law provides that when 90 per cent of the cattle in a

township, or county have been tested the remaining cattle must be tested. In nine townships of Columbiana county more than 90 per cent have been tested and in four more townships this figure will be reached in a few days. It is expected that the 90 per cent rule will apply to the entire county shortly.

Herd owners who have not been tested on the area test and who wish to test with indemnity for reactors should contact their local veterinarian or write to R. C. Brager, Agricultural Extension Service, Courthouse, Lisbon, who is working in the county from the state veterinarian's office.

Aids Sales of Apples

Both retailers and consumers often hesitate to buy Ohio Rome Beauty apples because of their frequent tendency to scald after reaching the grocer's shelves or later in the home, says Donald Comin horticulturist at the Ohio Agricultural Experiment station. The grower may sell his fruit in good faith since it shows no sign of scald when it leaves the stor-

age. Scald produces a brown, dead appearance of the skin, continues Comin, and although it seldom penetrates the flesh, it makes the fruit unattractive. Apples are pre-conditioned to scald before they are harvested but there is no way of telling which fruits will later scald.

At present, reports the horticulturist, activated coconut shell carbon shows great promise in controlling this worst of all storage disorders. The carbon has a high absorption power for the volatile materials from the fruit which, if not removed, may concentrate in the skin of the apple in sufficient quantity to cause scald.

The cost of commercial equipment to control scald is about six cents per bushel per season. Fruit growers may construct their own scald equipment but it will be successful only if made with considerable care. The Ohio station has plans for constructing and using such equipment which good faith since it shows no sign of scald when it leaves the stor-

CIO Arranges Picnic

A Labor day picnic and rally for all CIO members in the Mahoning valley, sponsored by the Mahoning County CIO council, will be held at Idora park Monday, Sept. 5.

A well rounded program has

been planned by the chairman of the picnic committee, Herbert Jones.

Home sewers now can buy ready-made smocking for dress trimming. Saves hours of hand work, and looks about the same.

THIS BUICK SPECIAL 3-PASSENGER COUPE

(Model 46) does double duty as a business car and a car for the small family.

Come see this Stunning New Buick SPECIAL—
big in room, big in valve-in-head straight-8 power,
easy to manage in size and price

Yes, we know it looks like a lot more money.

That stunning new front end—those graceful, tapering fenders—those bigger interiors and high-visibility windows add up to a car you'd expect to wear a pretty fancy price tag.

But come in and see for yourself how right we were when we said this new beauty was priced right down your alley.

Come try the comfort-patterned seats, handle this easily managed wheel, lift the hood and see the bonnet-filling valve-in-head straight-eight power plant you command, measure the shorter bumper-to-bumper length.

Then do a little hard-boiled matching-up of price tags.

In particular—compare this beauty with the sixes—and ask yourself why you should pay for straight-eight power and not get it.

You have, remember, three smart body types to choose from—the tidy, three-passenger Coupe shown here, a neat 2-door, six-passenger Sedanet and a smart 4-door Sedan with the roomiest interiors ever found in a Buick SPECIAL.

They're going fast, as you might expect. Getting a firm order in is a smart move just to insure early delivery.

How about dropping in—the first minute you can?

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Stengel Can Feel That Hot Breath On His Neck--Red Sox

McCarthy's Men Make Up 8 Games In Only Seven Weeks

By JOE REICHLER

A penny for Casey Stengel's thoughts today as once again the manager of the New York Yankees feels the hot breath of the oncoming Boston Red Sox on the back of his neck.

Wasn't it just seven weeks ago Stengel wrote off the Red Sox?

"This is it," he exclaimed jubilantly on July 4 after the Yankees had whipped the Sox for the fifth straight time. "The Red Sox won't bother us any more. We knocked them right out of the race. They'll never recover."

And who would say that Casey was wrong? Those were hard days for Ted Williams and company. They had suffered eight defeats in a row. They were wallowing in fifth place. The Yankees were 12 full games away, and it appeared only a miracle could pull them back. Why, the Red Sox would be lucky to finish in the first division.

Today, exactly seven weeks later, the Red Sox, in an amazing amount of time, have made up two thirds of the ground on the Yankees. Now in second place, they've picked up eight games and trail by only four. Oddly enough, there are exactly seven weeks left in the playing schedule. It doesn't take a certified public accountant to figure out the pennant winner, should the Sox repeat their last seven weeks' work.

The Sox, piling up 24 hits and 18 bases on balls, overpowered the Washington Senators twice yesterday, 9-2 and 13-4, to pick up another game on the Yankees. Stengel's crew whipped Philadelphia, 4-2, but the Ath-

letics came back to win the second game of the doubleheader, 4-3.

The twin triumph gave the Red Sox a record of 32 victories in 41 games since that fateful July 4. They've now won 18 of 22 in their latest home stand. Five in a row have come at the expense of the Senators, whom they meet 10 more times. In one, they hold an 8-3 lead after six innings. The game will be completed later this week. Boston also has seven games left with the Yankees.

The Brooklyn Dodgers regained the lead from St. Louis in the tight National League race, winning from Boston, 7-2 while Pittsburgh was trouncing the Cardinals, 4-0. This turn of events put the Brooks one game in front of the Redbirds.

The third place New York Giants remained 12 full games off the pace despite their two victories over the Philadelphia Phils, 8-1 and 1-0. The Cincinnati Reds came out on top in the battle of the cellarites, winning two from the last place Chicago Cubs, 4-2 and 8-0.

Lefty Mel Parnell turned in his 18th triumph for the Boston Red Sox with a seven-hitter in the opener against Washington. Dom DiMaggio sparked the Red Sox attack with a home run and two singles.

Junior Stephens hits his 31st home run in the second game with two mates on base to help Jack Kramer beat the Senators' Paul Calvert.

Alex Kellner scored his fourth victory over the Yankees and his 15th of the season as the Athletics beat the league leaders for a split of the doubleheader. Bob Porterfield, aided by Joe Page, was credited with winning the opener for the Yankees.

The fourth place Detroit Tigers moved to within eight and a half games off the pace, downing the St. Louis Browns twice, 6-2 and 4-3. Fred Hutchinson coasted to his 11th victory and his sixth straight with a six-hitter in the opener. George Kell paced the Tigers with a double and triple to drive in three runs.

HERE IS SOMETHING DIFFERENT!!

64.66 acres located three miles north of Salem on Goshen road. Two extra good houses. One house of seven rooms with slate roof, strictly modern, very nicely planned and set back the right distance off the road with abundance of nice shade. Grand front porch. The other house is also a good house under slate roof, six rooms with furnace, electricity and pitcher pump in kitchen. Good barn with stanchions, silo and other necessary out-buildings. This farm has very good bottom land pasture with running water through it. This is one of the best producing farms I have ever offered. Excellent neighborhood. Children hauled to school. Price only \$16,000.00.

Having two houses on this farm makes it ideal for your father and mother or if you have a married son or daughter that you want near you. If you wanted to work some where else, your father could farm the farm or this farm properly farmed would provide an income large enough for both families.

We can offer you the six room house with a large garden spot and abundance of nice shade with two car garage at a price of only \$6,000.00.

FELLER GUNS FOR NO. 12 WIN TONIGHT

Will Oppose Newhouse In Effort To Stay Up Leaders

CLEVELAND, Aug. 15—(AP)—Bob Feller—riding on a hot streak—will seek his 12th victory and sixth in a row as the Cleveland Indians meet the Detroit Tigers tonight in the first of a two-game series.

Prince Hal, Newhouse, also after his 12th win, will hurl for the Bengals.

It was Feller's eight straight wins about this time last year that pulled the Indians up by the bootstraps. If the big veteran can enjoy a similar streak, the Indians should snap out of the doldrums that have them five games off the pace of the New York Yankees.

A double win, 4-3 and 5-0, over the Chicago White Sox yesterday while the Yanks split with Philadelphia brought a ray of hope to the Indians camp.

Bob Lemon's six-hit pitching in the opener stumped the Sox except for the fourth inning when they scored all their runs to take a 3-2 lead.

The big blow was a pinch single by big Gus Zernial with the bases clogged which scored two runs. Another single by Dave Philley scored the other marker.

A triple by Dale Mitchell and Larry Doby's 17th home run had given the Tribe a 2-0 lead in the third. They scored what proved to be the tying and winning runs in the fifth when Mitchell and Doby walked after two were out and scored on singles by Mickey Vernon and Manager Lou Boudreau.

The rest of the game passed without event save for the ninth when the Sox had a runner on third with two out.

Former Clevelander George Metkovich became the base runner when he walked in a pinch hitting role with one out.

Herb Adams then lined to Doby and the center fielder threw the ball into the Cleveland dugout when he tried to double Metkovich off first. Metkovich went to third.

Lemon, who had retired 15 out of 16 hitters before passing Metkovich, then got Philley on a fly to Doby.

Howard Judson, one of baseball's real hard luck guys, was charged with his 13th loss in the contest. He has won only one.

The second game was one-sided in only one department—the score.

Each team got only five hits, but the Tribe put four of theirs together in the fourth inning for four runs. Victim of the uprising was young Billy Pierce.

With one out, Doby walked and moved to second when Vernon beat out a hit to First Base—man Charley Kress. Boudreau then singled to center to score Doby and send Vernon to second.

Joe Gordon was tossed out by Pierce but Johnny Berardino scored both Vernon and Boudreau with another single to center. The scoring was completed and Pierce

Walcott Will Fight All Comers, He Says

STOCKHOLM, Aug. 15—(AP)—Ancient Joe Walcott, grinning from ear to ear, stretched out in his hotel room today and told the world to bring on its leading heavyweights—he'd fight 'em all.

While his manager, Felix Bocchicchio, nodded in agreement, Jersey Joe, loser twice to Joe Louis in heavyweight fights, said he planned to take a European exhibition tour to include Holland, England, Belgium, France and possibly Spain.

He figures he is among the top contenders for Ezzard Charles' NBA version of the heavyweight crown, following his slick performance in knocking out Sweden's Oile Tanberg in the fifth stanza of their scheduled 12-round bout last night.

"I want another crack at Charles," said the veteran warrior from Camden, N. J., who was outpointed by Ez earlier in the summer. "I feel certain I will beat him the next time."

Bocchicchio, the bustling little manager, thought so, too.

"The Tanberg affair was a clean fight, and Joe's victory will keep him up in the contender's division next to Charles."

Would Jersey Joe be winning to fight anyone other than Charles?

"He sure would," said the excited Bocchicchio, who received the congratulations of U.S. ambassador to Sweden, H. Freeman Andrews, after the battle. "If the Bruce Woodcock-Lee Savold match comes off in September as scheduled, we'll gladly take on the winner."

The next home game for the Salem club will be Sept. 11.

The Browns completed 11 of 12 passes and held the Hornets to a net gain of 45 yards on the ground and 77 via the airways.

The Chicagoans threatened only once, when Ray Ramsey returned a punt 58 yards to the Browns' 10. Johnny Clement plunged to the two-yard line as the half ended.

By the time the Chicagoans made their lone bid the Browns already were in front, 14-0. Otto Graham scored on a 29-yard run in the first period. He decided to leg-it after being trapped while attempting a pass.

Ed Sustersic, a rookie fullback, scored the two other touchdowns—in the second and third periods. Sustersic bucked into pay dirt from three yards and one-yard out. Lou (The Toe) Groza, as usual, kicked the extra points.

The Browns would have completed 12 out of 12 passes except that End Horace Gillom dropped one of Graham's tosses in a clear field.

The Clevelanders dominated the statistics, rolling up 11 first down to five and 160 yards rushing to 45. But Coach Brown had two things to worry about today.

(1) The Browns allowed the Chicagoans to return six punts for 237 yards and (2) The way the San Francisco 49ers dusted off the Buffalo Bills, 21-10, in an exhibition game at San Francisco yesterday. The 49ers, of course, have been the Browns' toughest rivals in the AAC.

Frankie Albert threw two long passes for San Francisco touchdowns.

Same Old Browns; Beat Hornets 21-0

TOLEDO, Aug. 15—(AP)—Cleveland's Browns may not win a fourth straight All-American pro football conference title this fall—but don't tell that to the 13,000 fans who watched them drub the Chicago Hornets here yesterday.

Coach Paul Brown's crew was snappy and workmanlike as it polished over the revamped and supposedly revitalized Hornets, 21-0. It was the midwest's first pro football exhibition of the season.

The Browns completed 11 of 12 passes and held the Hornets to a net gain of 45 yards on the ground and 77 via the airways.

The Chicagoans threatened only once, when Ray Ramsey returned a punt 58 yards to the Browns' 10. Johnny Clement plunged to the two-yard line as the half ended.

By the time the Chicagoans made their lone bid the Browns already were in front, 14-0. Otto Graham scored on a 29-yard run in the first period. He decided to leg-it after being trapped while attempting a pass.

Ed Sustersic, a rookie fullback, scored the two other touchdowns—in the second and third periods. Sustersic bucked into pay dirt from three yards and one-yard out. Lou (The Toe) Groza, as usual, kicked the extra points.

The Browns would have completed 12 out of 12 passes except that End Horace Gillom dropped one of Graham's tosses in a clear field.

The Clevelanders dominated the statistics, rolling up 11 first down to five and 160 yards rushing to 45. But Coach Brown had two things to worry about today.

(1) The Browns allowed the Chicagoans to return six punts for 237 yards and (2) The way the San Francisco 49ers dusted off the Buffalo Bills, 21-10, in an exhibition game at San Francisco yesterday. The 49ers, of course, have been the Browns' toughest rivals in the AAC.

Frankie Albert threw two long passes for San Francisco touchdowns.

The national hard court tennis championships will be decided in Berkeley, Calif., Sept. 17-25.

Salem Legion Loses To Cadiz In Tourney

Salem's fine Junior Legion baseball team was eliminated from tournament play at New Philadelphia Saturday, losing to Cadiz 2-1, although the winners got only four hits.

Bob Theiss pitched for Salem. He had one wild spell in the fourth when he forced one run across on walks. He fanned 11 and walked eleven. Theiss notched three of Salem's hits, including a homerun in the sixth.

Salem will close its season Sunday, when the Massillon Juniors play here.

Hundreds Still Claim They'll Buy New Home

Survey Shows That Right Price,
Design Will Attract Purchasers

Clamor for new houses is not materially less than it was a year ago. This was the finding of a survey conducted by the University of Michigan Institute for Social Research for the Federal Reserve board.

The survey, based on 3,500 interviews, found that "about as many consumer units indicated intentions to buy houses during 1949, assuming the availability of dwellings of satisfactory design and price, as had expressed similar intentions at the beginning of 1948."

Moderate Prices Wanted

"This is greater than the number of new units that will be completed for owner-occupancy during the year," the survey pointed out. It warned that "survey results also suggest that low and middle income spending units were in the market for more moderately priced houses of acceptable quality than seem likely from available evidence to be produced during the year."

A major qualification in the board's data is the business decline since the survey was made in January and February. However, families interviewed expected some economic recession. Their plans for purchasing durable goods like houses were more carefully considered than for other types of goods.

Prospective home buyers with annual incomes over \$3,000 were exactly the same as in 1948—67 per cent.

Veteran Is Best Customer

Comparing what consumers in 1948 had actually purchased with what they said they intended to purchase, the survey found a tendency to under-estimate. In 1948, 24 percent of families in the sample line said they planned to

buy houses costing \$10,000 and over, but 33 percent actually purchased homes in that price range. The 23 percent of families who said they planned to buy homes costing between \$5,000 and \$7,500 shrank to 15 percent.

In the current survey 30 percent of all prospective buyers planned to purchase homes costing over \$10,000, the largest proportion reported in the last three years.

Veterans will continue to rule the housing market this year, the survey shows. Two houses will be sold to veterans for every one sold to nonveterans. The chief reason is the percentage of veterans between 25 and 44 years of age.

Timetable Helps Builder

Through application of precision methods on a "timetable" schedule, a New York builder was able to complete the first units of a 2,520 apartment development within six months after ground was broken.

This builder planned every step in advance. Materials were bought in advance. This made it possible to send a steady flow of materials in proper sequence to each part of the project as required. The work of each trade and each contractor was coordinated with every other one. For example, when lathers finished in one apartment, a plastering crew starts work within a few minutes.

Weekly meetings with the contractors to set up a schedule naming the day each contractor is to start his work and the day he is to finish also helped to speed up the construction program.

NEWGARDEN RD. HOME OVERLOOKS CITY

Overlooking Salem is a small, comfortable-looking house. It is the home of the Donald Combs family on the Newgarden road, just outside the Salem city limits. It is built on high ground and from a large picture window in the back of the house the Combs get a wide view of Salem's high buildings.

The home is almost completed and has four rooms and a bath in the one-floor plan. It is built so that more rooms may be added with a minimum of remodeling. The house is 42 ft. wide by 26 ft. deep and was constructed according to a popular magazine's plans with minor changes.

A section of the basement is used as the garage as the back of the house is above ground level at the basement. Concrete blocks were used for basement walls with a steel center beam and steel posts for support in the center of the house.

Lap siding was used for three-fourths of the exterior walls with vertical strips on the remaining fourth.

The living and dining rooms are not separated and both are floored with pre-cut oak hard-

wood, as are the two bedrooms. A colonial theme is being carried out for the interior decorations. With this idea the Combs installed an oversized Colonial fireplace. The mantel is pine as is most of the wood trim throughout the home.

The kitchen and bath are in the front of the house. Antique "H and L" hinges were used for all kitchen cupboard doors. This room has been painted in blue and white. A handy breakfast nook is in an extended wing of the room.

The picture frame window is nine feet wide with a double hung window at either side for ventilation. There are corner windows in both bedrooms and the house as a whole has more window space than is usually seen in this area. A feature of the master bedroom is the convenient Mr. and Mrs. closet.

The H. L. Wright Co. built the home which is valued in the \$12,000 bracket.

Pillow slips should never serve as a laundry bag. Soiled clothes should not be tied up in a sheet when laundry is sent out. Use a regular laundry bag.

Chicago Store Makes Marketing Easy

CHICAGO—(UP)—This city has come up with a challenge for Hollywood in the field of glamorized retail stores.

A grocery supermarket claims to do everything but make the homemaker's selections for her, or pay the bill. But it makes both those tasks as painless as possible.

The store sits in the center of three large parking lots, thereby eliminating the shopper's first problem.

The fourth side at the front of the store is beautified by a garden.

There is a lobby inside the store where shoppers may rest behind ceiling-high, heat resistant windows. Here, too, baby carriages may be parked off the street and out of the weather on bad days.

A special window in the lobby

is provided where returned merchandise such as empty bottles may be exchanged without actually going into the store proper. When her selections are complete, the housewife need not fear the usual bottle-neck at the checking counter.

A "Spec-Dee" check out counter cuts two-thirds off the time usually needed for checking and packaging, the store claims.

The shopper puts her items on one end of a half-circle counter. The cashier stands in the center with the bagger just behind her. The cashier steps on a foot pedal, the counter top moves electrically around to the cash register position where they are rung up, then on to the bagger.

By the time the housewife saunters to the end of the counter her package is ready and she's on her way.

West Coast Homes Seen Losing Rigidity of Lines

The style of houses being built on the Pacific Coast is "evidently the best expression of the sort of house most desired by the country as a whole," according to the 1949 Britannica Book of the Year. The comment appears in the Britannica yearbook article on "Architecture," which was contributed by Carroll L. V. Meeks, associate professor of architecture and of the history of art at Yale university and president of the Society of Architectural Historians.

On an esthetic basis, Mr. Meeks writes, in 1948 for the first time "the geometrical purity of the 1930's was being challenged not only by the traditionalists but also by some of its former proponents."

"One of the failures of the modern architecture of the '30's was attributed to its exclusive concern with the expression of materials and structure in abstract geometrical forms. If a new trend could be identified, it was toward less rigidity and more individual expression. The rectilinear universe of the '30's was being replaced by one characterized by looser curvilinear forms."

Expert Says \$6,000 House Now Possible

Careful planning and close coordinating of construction work can bring the overall cost of housing down, according to Ray A. Jaeger of the Midland Federal Savings & Loan Association in Denver. He cites the experience of his own firm as an example; an 800-square foot house without basement was decided upon as being the most practicable size, as well as the most economical unit to construct. This area was found necessary to provide a livable two-bedroom house with living room, dining, kitchen and utility room. A smaller unit also required just as much expenditure for heating, wiring and plumbing.

The Midland Federal house will cost approximately \$5,950, and it can be sold for \$950 down. The total payments including interest, insurance, and principal will not exceed \$48.50 a month.

Picture Windows Help Rid Allotment Sameness

Picture windows are a popular feature of the modern home—particularly in economy housing—as a means of overcoming the monotony of similarity when one set of floor plans is used.

The window need not conform to the basic heights established for the other windows of the house. It may start at the top of the base and extend to a point below the ceiling line, but its character and size should be proportionately correct with the balance of the house.

A feature that is very necessary, but often ignored when picture windows are used, is an appropriate overhang on the outside of the house to protect the room from the direct rays of the sun. Extension of the roof lines is often the simplest and most effective method for creating an overhang. A moulded gutter at the eave line, sloped to downspout at one end wall take care of the roof drainage.

Outdoor Furniture Part of Color Plan

Outdoor furniture colors should be chosen in relation to the exterior color plan of the home just as indoor furniture is selected for color harmony with the walls of a room.

Careful color planning also is recommended for other decorative elements of a home's exterior. Awnings, flower boxes and even flowers themselves, particularly if the flowers are massed, come in this category.

The overall exterior color plan should be based on the roof color and a choice of a wide variety of effects can be made by selecting from the numerous solid and blended colors in which asphalt shingles are available. Other exterior colors then can harmonize, with the central color of the roof serving to integrate the group.

'VEST POCKET' KITCHEN DESIGNED FROM BACK STAIRWELL AND HALLWAY

Bill Evans, co-designer of interior (right), and actress Leora Dana enjoy an after-theatre snack in the miniature but complete "vest-pocket" kitchen converted from the back stairwell and hall (left).

By HUGH EVANS

Written for NEA Service

The "vest pocket" kitchen, miniature but complete, stationary but removable, which can be built into a shallow closet, window alcove or even a stairwell is the householder's ace in the hole today for turning rooms into no cooking facilities into a real home.

This problem of what to do about a kitchen can be solved by families whose search for homes wind up with rented cellars, one-room accommodations, or the upper stories of houses unequipped for cooking.

Proof that a vest-pocket kitchen can be put in almost anywhere that provides enough space for cooking, dishwashing and refrigeration—even over a partially closed stairwell—is the H. V. Kaltenborn project which my brother Bill and I installed for this New York radio news commentator.

In this case, the need was for an easy-access upstairs "snack" kitchen which in our client's home was installed over the stairwell to supplement a full-sized downstairs kitchen.

What was done here to convert a narrow hall, made narrower by a stairwell, into a "vest-pocket" kitchen can be duplicated in kind by any household whose crying need is for small-scale, efficient cooking facilities.

In the Kaltenborn home, we made room for one small steel cabinet, a two-burner stove, a sink, a medium-sized refrigerator and a storage cabinet by taking the needed space from a narrow back hallway. The hallway forms the landing for the back stairs, and serves as passageway between library and living room.

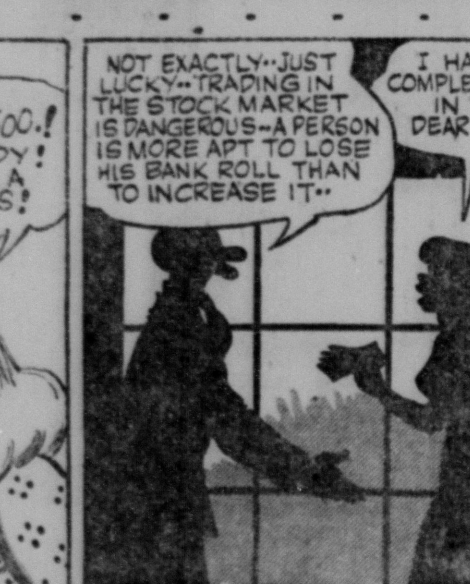

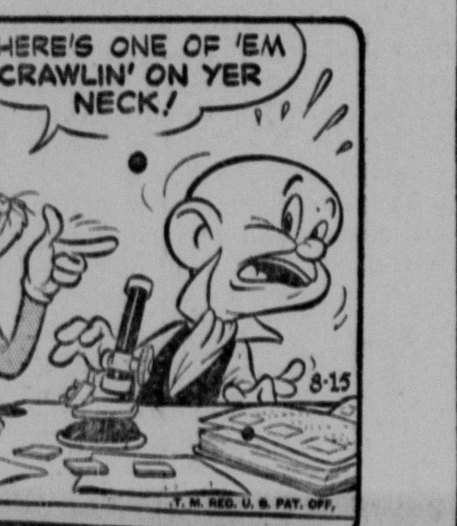

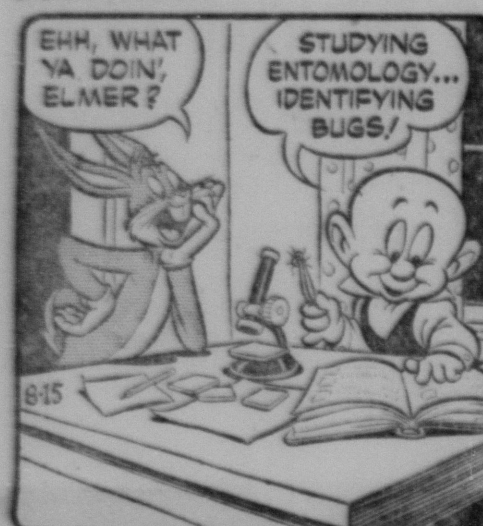

For the additional space needed for installing kitchen units an old storage cupboard was removed and flooring was built over part of the stairwell of the descending back stairs. This partition of stairwell was covered to

provide a floor stout enough for the support of kitchen unit's weight. The flooring, however, did not interfere with stairway traffic or reduce the head room of stair-climbers.

The stove-refrigerator unit was anchored in place over the new flooring, and a cabinet was hung above. A hardwood natural finish board placed at the exposed end of the stove and attached securely over the stair bannister served as an adequate work table.

Plumbing and electric wiring were connected to basement outlets, and a three-plug electric outlet on the hardwood table top was added to accommodate electric toaster, grill or broiler.

This newcomer in the Kaltenborn home, which despite its small size and upstairs location is a formidable rival of a full-scale downstairs kitchen as the most popular room in the house, owes some of its popularity to its good looks. It's painted white and colorfully framed by inexpensive but brilliant Mexican paper masks hung on the wall.

BE SURE OF EARLY DELIVERY!

BUY COAL NOW

AT LOW SUMMER PRICES

We are asking orders now for coal delivery for September and the balance of the winter months. This coal comes from the national mines of the Crown Coal Co. in the Pittsburgh area.

This high grade coal gives you less ashes - more heat for your dollar - order now and save.

Comes in Lump - Egg and Treated Stoker

Here is a splendid opportunity for you to get rid of your biggest "Winter Worry." Order now avoid the rush.

QUALITY PLUMBING & HEATING

CELLAR DAMPNES CALLS FOR SLEUTH

Hard Shoveling May Follow Finding Of Trouble

That basement of yours is still damp, your old work shoes in the shop slightly mildewed, and you can't find the source of moisture? You're convinced it must be water from the outside?

Assume for a moment that you have a faulty downspout. That might be the culprit. At the foot of your downspout, you know, is a length of sewer pipe leading to the drain around the foundation of your house if the lines were properly laid. The water comes off your roof, along the gutter, down the spout, through the tile into the drain line. Come a cloudburst and there could be a lot of water passing over that route.

What do you suppose happens if 1—that tile at the bottom is clogged with roots or dirt, 2—if the tile is cracked, perhaps by frost or settling? Some of that water leaks out of the line, soaks the earth around your foundation, and then, unless your basement is particularly well sealed, it works through into the basement as moisture. Then you have the damp condition you're troubled with. Not much fun.

Job for Shovel
Having checked off other sources of moisture in that corner of your house and found them not guilty, you'd better decide to go down the spout drain. It's a digging job. Maybe you'll want a contractor to do it. He'll save you some of the world's most awkward and arduous digging and cost you a few dollars, but it's worth it.

Whether he or you do it, you'll probably find a broken tile, and a dirt-plugged line, yes both of them. Break out the broken tile in preparation for replacement. Poke the outgoing drain line with a stick, to clear. Or run your hose with the nozzle screwed up for a hard, boring stream, into the clogged line and water-bore through it. Once you've opened a small hole in the plugging mass, you can easily flush so the mud will keep traveling.

You'll find it a fussy little job replacing a section of tile. Cement the point. Prop the sections with small stones to steady them in position while cementing. Let the cement set before you fill the excavation—overnight.

While you are down there toward China, examine your basement wall for cracks in its outside cement skin. Patch them before you fill in the excavation.

A coolish day is preferred for this operation.

Modern Mechanized Home Has Letter File

In these days when homes are becoming small-scale machine shops, with electrical appliances, electric tools, automatic furnaces and other machines, it makes sense to prepare a spot for saving instruction sheets, parts lists and service records.

These papers often get lost. To be sure the owner would like to believe that, once installed in the house, the machine will run forever with no more concern on his part. That is wishful thinking of the worst kind. They won't run forever or without attention. In time they will all need some service by yourself or a service expert. The first step for service will be to find that instruction book, order catalogue or other original data on the machine.

So set up one of those dollar letter files in the basement workshop, and put all the instruction tags, guarantee forms, part books and other "sometimes necessary" papers in it when you get your machine—and remember where you keep the file. It will save you money to do so.

How to Fix Old Lamps

There's new light and life in the old lamps so why not get them back into use rather than let them sit around in the dark leaving you there too.

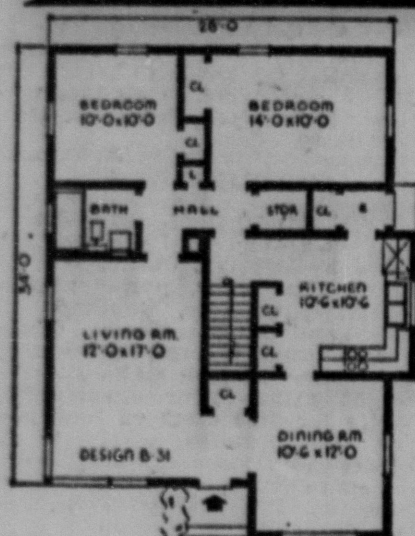

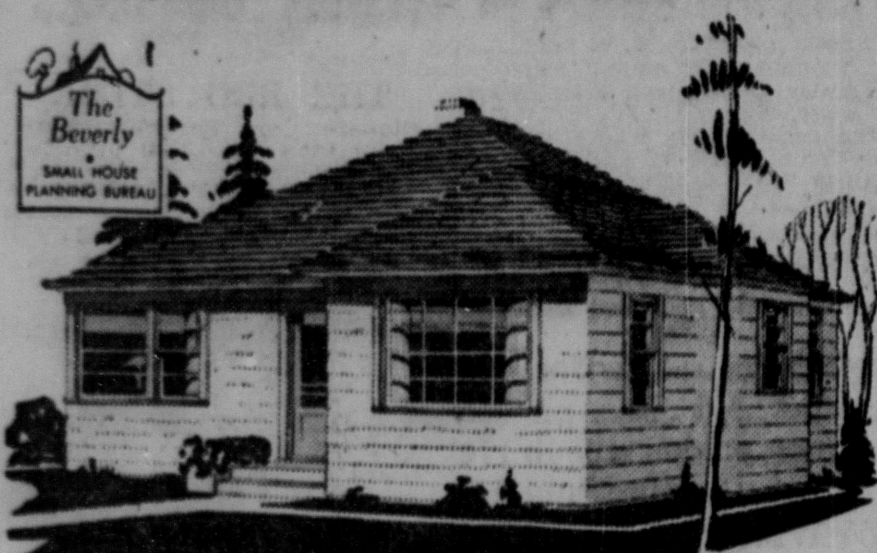

In modernizing one of your lamps, first turn the socket upright. Next screw on a six-inch plastic diffusing bowl to the threaded socket to soften the light. Then put in a 100-watt or 150-watt bulb and hang the lamp shade. Maybe you want a new lamp shade; ask for one that is 12 inches in diameter with a white lining.

Set the arm on the shaft so the bottom of the shade is 48 inches from the floor, and keep its brim parallel to the floor. Lighting specialists point out that for both comfortable seeing and best appearance, lampshades should not tilt.

Another modernizing move with lamps—to soften harsh lighting—succeeds with a metal disk around the socket and a silvered bowl bulb. This bulb looks as if it might have been dipped a third of its length down into aluminum paint. The disks are back on the market after wartime absence.

You can restyle your lamps in this fashion in a few minutes, and you'll like the improvement.

KITCHEN - DINETTE IN SMALL HOME

THE BEVERLY has a plan which calls for a separate dining room as well as sufficient space in the kitchen for a breakfast set. Entrance to the roomy kitchen is through a small vestibule equipped with a convenient coat closet next to the side door.

All rooms in The Beverly, with the exception of the dining room, open into a small central hall. This allows free circulation between the rooms. Generous storage space is provided for in The Beverly. There are wardrobes in each of the bedrooms, a linen closet and a general storage closet opening on the hall. Also coat closets for the front and side entrances and broom and pot and pan closets in the kitchen.

The exterior of The Beverly is of siding, on frame construction. The outside walls and ceiling of The Beverly are completely insulated. The Beverly's roof is covered with asphalt shingles.

The main body of The Beverly is 28 feet by 34 feet, with a full basement. It has an area of 1,038 square feet and a volume of 19,636 cubic feet.

For further information about THE BEVERLY, write the Small House Planning Bureau, St. Cloud, Minn.

Stokers Need Coal and Air; Better Check Now

Mechanical stokers are double-barreled fuel feeders. They feed both air and coal through one channel.

If you have a stoker, this is a good month to check it to be sure both coal and air get into the firebox. Clean the stoker retort, the firebox. Remove all ash and unburned coal. Is the stoker rusted from summer humidity? Wire-brush the rusted spots. Clean the machine thoroughly.

You were thinking of waiting until fall to have it checked and cleaned? So will most people, just procrastinating. And then you will call in a hurry for service, and the service companies will be jammed, and you will have to wait. You will do much better to call for the service this summer.

You fear a test of your stoker will warm up the house too much, so you hesitate. It will not do nearly so much warming as the sun does without any help right now. Furthermore, a bit of furnace heat might help to dry some of this humidity out of the walls, the basement and the furniture.

\$100 Surplus War Plane Made Into Trailer Home

BAY CITY, Mich. — Hubert Hine is moving his family from Manitoba to Ontario in a Canadian Anson bomber converted into a house trailer.

He bought the surplus plane for \$100. The wings were cut off except for a narrow strip left for fenders. The fuselage was shortened. Landing gears and wheels were replaced with regular auto wheels.

Inside, the bomber-trailer has a wooden floor and is equipped as a deluxe house on wheels.

Luminous Paint Will Save Family From Collisions

These luminous paints that are now showing up in gleaming posters all over town have a particular virtue in a home. Have you not had the experience, in the dark of night, of stumbling on a chair rocker, a bedpost, misjudging a step on the stairs or failing to see a door standing open that is usually closed?

Luminous paints are now to be had that will reveal just where these odd ends of furniture are in the dark. Take the edge of a door. It gleams in a long, upright line when so painted. The chair rocker is a bright curve in the dark. The stair lift establishes just where you should put your foot. Even the light switch plate can be coated so that you can see it in the dark.

Such visibility as luminous coatings give—is a safety precaution—a sane precaution indeed when you read the record of household accidents, many of which are nuisance accidents that cause tempers to flare if they don't break a bone.

Applying the luminous paint is no trick. It is a two-coat job. New wood surfaces should be primed before the luminous paint is put on. Previously painted surfaces that have a lead paint content should be given an enamel undercoat. Other surfaces can take the luminous paint direct.

Look around the house, for instance, for shadowy stairwells where you do not keep a light burning at all times, and see if there, too, it would not be good sense to apply a luminous coat.

The paint works well, drawing its luminescence from natural or artificial light sources during the day, as it were, and giving it off at night.

Buyers Like Package Cost For New Homes

The "packaged mortgage," in which equipment and appliances are included in the selling price of a new home, is widely appreciated by home buyers and is helping to keep the sale of houses at record levels, according to American Builder magazine.

Advantage of the packaged mortgage, American Builder explains, is that it enables the buyer to amortize the cost of equipment as well as the cost of the house itself over a long period of time. Less ready cash is needed.

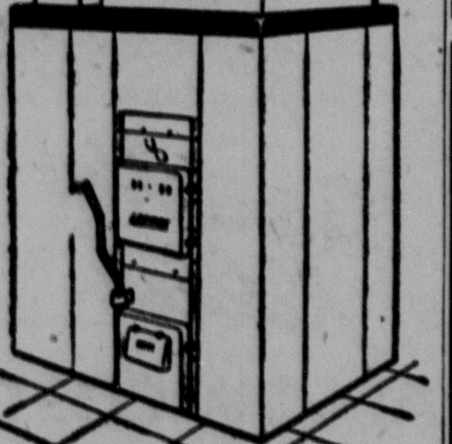

A survey made by the trade magazine shows that 89 per cent of new houses have built-in kitchen cabinets, 35 per cent have gas or electric ranges, 28 per cent have gas or electric refrigerators, 18 per cent have automatic dishwashers, 20 per cent have garbage disposal units and 34 per cent have kitchen ventilating fans.

Builders participating in the survey said they include venetian blinds in 42 per cent of their new houses, window shades in 30 per cent, mail chutes in 27 per cent, door chimes in 61 per cent, clothes closet equipment in 23 per cent and hot water heaters in 92 per cent.

Use only soap and water to wash refrigerator ice trays. Metal sponges, steel wool or coarse powders may remove the surface wax film which is needed to facilitate the removal of ice cubes from the trays.

OH, (DON'T) GIVE ME A HOME—This is the "dream house," valued at \$16,000, which Mr. and Mrs. Albert Birnbaum of New York City won on a 50-cent raffle ticket. The joker was that no lot went with the house, and the Birnbaums, being apartment dwellers, hardly know what to do with it. This problem, plus the cost of moving the house, income taxes and other considerations, has made the "dream house" a nightmare to the "lucky" winners.

"Package" Chimney Rid of Old Brick Style Faults

The average brick chimney has about 5,000 joints, made with mortar, and weather and corrosive flue gases often combine to eat holes in the mortar joints. The result, as many owners of older homes know, is low draft, poor heater operation and even fire hazard.

All this is eliminated in a new "packaged" lightweight masonry chimney with an average of only five joints and which can be suspended from an upper floor or ceiling.

Tile lined, insulated and reinforced, the new precast chimney weighs less than one tenth as much as a brick chimney. It is acid proof and can be used with all types of heating fuels.

The chimney carries the Underwriters Laboratories, Inc., label and is approved for use in place of a brick chimney in one and two-story houses, with or without basement.

The laboratories tested the chimney for several months, under all conditions of service. It was tested for extremely high flue gas temperatures, heat shock, freezing and thawing, structural overload, acid corrosion, smoke leakage, mishandling, permanence, durability and efficiency.

Although the chimney itself is round, a decorative roof housing is furnished in conventional square design, which may be painted in any color.

EQUIPMENT FOR SHOWER BATH HAS GREATER VARIETY

Equipment for shower baths is available in a greater variety than ever, according to the Plumbing and Heating Industries Bureau.

Manufacturers have caught up with the backlog of accumulated demand, and now are able to supply dealers and distributors with a full line of show equipment equal or superior to pre-war products, the Bureau, a national trade organization reported.

Significant developments have been made recently in controls for showers, in heads, in pre-fabricated metal shower compartments and glass enclosures.

Another development is the design of bathtubs with integral seats. When a tub is used as a shower receptor, it is possible now to take a shower while seated.

Bathtubs with seats have been

come popular in recent years, but showers permitting a sitting position have been introduced only lately. Even the pre-fabricated metal shower compartments may be equipped with stools.

In older showers changes in the supply of hot and cold water due to fluctuating water pressure were unpredictable. A single lever mixing control is now used. If the supply of hot water is constant in temperature, the pressure equalizing type of control is used. When there are fluctuations in temperature as well as pressure, the thermostatic type of mixing valve is recommended.

A new plastic package, the shape of a strawberry basket, now allows small fruit such as berries and cherries to be packed in the fields and orchards, washed, crated, shipped and served without multiple handling of the fruit.

To pep up a tired summer ensemble, try putting on new ceramic buttons, and making earrings to match.

Ohio Fruit Crops May Set Record

COLUMBUS, Aug. 15—(UP)—The Ohio Cooperative Crop Reporting Service predicted today that fruit crops in Ohio this year

will be the largest since 1944. The service estimated the 1949 commercial apple crop at 5,032,000 bushels, compared with 1,936,000 bushels in 1948; peaches at 1,054,000 bushels, compared with last year's 78,000; pears at 248,000 bushels, compared with the 1948 crop of 176,000 bushels; and grapes at 15,800 tons, compared with 11,000 tons in 1948.

Wheat and sugar beet crops also will be up this year over the 1948 figure, the service estimated. The yield this year as compared with last year will be down for corn, soybeans, oats, barley, rye, buckwheat, hay and potatoes, the estimate showed.

The service blamed a reduction in acreage for the expected drop in corn, soybeans, barley, buckwheat, rye and potatoes. The hot, dry weather in June hurt the oats yield and the hay total will be less because of dry weather earlier in the season.

Although the corn crop is expected to be less this year than last, the yield still will be well above the 10-year average of 160,389,000 bushels, the service added.

Concert At First Friends Church Well-Attended

Kenneth Phillips of Damascus directed the congregational singing at the sacred concert Friday evening in the First Friends church.

Several hundred persons attended the concert, which was sponsored by the Christian Endeavor union of Damascus Quarterly meeting. Clarence Townsend of Salem, president of the union, headed the committee on arrangements.

The program was as follows: Saxophone solo, Howard Jacobs of Alliance; selection by a mixed quartet from Deerfield, vocal solo, Leslie Burbick, student at Cleveland Bible college; violin solo, David Ford of R. D. Salem; vocal duet, Kenneth Plant and Robert Beaver of Quaker Hill; organ solo, Mrs. Harold

Winn and selection by a trip, Mary Helen Krebs, Wilma Jacobs and Lola Aufrance of Alliance.

Offertory, Rev. Harold B. Winn; vocal solo, Kenneth Phillips of Damascus; instrumental selection, Judy Hunsberger of Canton; vocal selection by the Lockhart family of East Goshen; musical reading, Mrs. Harold Tolson of Salem; benediction by Rev. Leon Roby.

One hundred and fifty dollars of the offering received will be given to church extension work in Oswego, New York.

Modern Improvement In Steel Market Shown

CLEVELAND, Aug. 15—(UP)—There was moderate improvement in the steel market during the past week and a little active buying, Steel magazine said today.

Steel said, however, that "new

business still falls short of outgoing shipments so that mill order backlogs continue to shrink. The more optimistic tone stems from rising consumer interest in inventories and a revival in home appliance, refrigerator and a few other lines."

While "the long term outlook is uncertain, and everything depends on the outcome of wage negotiations in the industry," Steel said several openhearted and electric furnaces that had been idle were returned to production.

Steel added "major business still comes from the automotive industry and no curtailment from that direction is in sight."

LEGAL NOTICE

NOTICE OF FILING OF APPLICATION TO RELIEVE ESTATE FROM ADMINISTRATION

General Code, Sec. 10509-5, Case No. 46150

PROBATE COURT, Columbiana County, Ohio, In the Matter of the Estate of Kate McChesney, deceased.

To all parties interested in the estate of Kate McChesney: You are hereby notified that on the 3rd day of August, 1949, an application was filed by Olive Gregory in the Probate Court of said county to relieve from administration the estate of said decedent.

Said application will be for hearing before said court on the 2nd day of September, 1949, at 10:00 o'clock A. M.

Witness by signature and the seal of said court this 3rd day of August, 1949.

M. C. COPE, Probate Judge.

Published in The Salem News Aug. 8-15-22, 1949.

NOTICE OF HEARING

O. G. C. 1512-14 (Sec. 4) IN PROBATE COURT THE STATE OF OHIO, In the matter of the adoption of Patricia Ann Circle, No. 189

To Clifford Dillon Circle, whose address is unknown and whose last known residence is 209 South Lincoln Avenue, Salem, Ohio.

You are hereby notified that on the 2nd day of August, 1949, William F. Lottman and Betty Jane Lottman, residing at 1212 Perry Avenue, East Liverpool, Ohio, filed their petition in the Probate Court of Columbiana County, Ohio, for leave to adopt Patricia Ann Circle.

Said petition contains the allegation that you, as the father of said child, have willfully neglected said child for a period of more than two years immediately preceding the filing of this petition.

If at the hearing it is found that such allegation of the petition is true your consent to the adoption of the above named child will not be required.

Hearing on said petition will be on the 16th day of September, 1949, at 10:15 o'clock A. M. in the Probate Court of Columbiana County, Ohio.

Witness my signature and the seal of said court, at Salem, Ohio, this 2nd day of August, 1949. (SEAL) M. C. COPE, Probate Judge.

LEGAL NOTICE

ORDINANCE No. 490502-29

RESOLVED AUGUST 15, 1949. DETERMINING TO PROCEED WITH THE IMPROVEMENT OF THE FIRST ALLEY WAY SOUTH OF EAST STATE STREET AND KNOWN AS DRY ALLEY, BETWEEN SOUTH BROADWAY AND SOUTH LINCOLN AVENUE IN THE CITY OF SALEM, OHIO.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF SALEM, OHIO, that all claims for damages resulting therefrom shall be judicially inquired into before the improvement is made.

Section 1. That it is hereby determined to proceed with the improvement of the FIRST ALLEY WAY SOUTH OF EAST STATE STREET AND KNOWN AS DRY ALLEY, BETWEEN SOUTH BROADWAY AND SOUTH LINCOLN AVENUE IN THE CITY OF SALEM, OHIO, by paving or resurfacing said alley according to the plans and specifications on file with the City of Salem, Ohio, in accordance with Resolution No. 490705-19, passed on the 5th day of July, 1949.

Section 2. That all claims for damages resulting therefrom shall be judicially inquired into before the improvement is made.

Section 3. That the whole cost of said improvement, less the cost of the intersections, shall be assessed by the foot front upon the following described lots and lands, to-wit: all lots and lands bounding and abutting upon the proposed improvement, which said lots and lands are hereby determined to be benefited by said improvement; and the cost of said improvement shall include the expense of the preliminary and other surveys, notices, resolutions and ordinances required, and the service of said notices, and the cost of construction, together with interest on notes and bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenditures.

Section 4. That the assessments so to be levied shall be paid in ten (10) annual installments, with interest on deferred payments, at the same rate as shall be borne by the bonds to be issued in anticipation of the collection thereof; provided, that the owner of any property assessed may, at his option, pay such assessments in cash within thirty days after the passage of the assessing ordinance.

Section 5. That the bonds of the City of Salem, Ohio, shall be issued in anticipation of the collection of assessments by installments and in an amount equal thereto; and notes of said city shall be issued in anticipation of the levying of such assessments and the issue of such bonds.

Section 6. That the remainder of the entire cost of said improvement, not specially assessed, including the cost of intersections, together with the cost of any other expenses or interest therein, purchased or appropriated, and the costs and expenses of any appropriation proceeding therefor, and the damages awarded any owner of adjoining lands and interest thereon, and the costs and expenses of any such award, shall be paid out of the One Mill Tax Levy Fund or by the issuance of bonds in the manner provided by law.

Section 7. That the Director of Public Service, be and he is hereby authorized and directed as soon as the funds therefor are available, to make and execute a contract for said improvement with the lowest and best bidder after advertisement, according to law.

Section 8. Due to the fact it is urgent that the various streets in the City of Salem, Ohio, be repaired, this ordinance is hereby declared to be an emergency ordinance and shall take effect from and in force from and after the earliest period allowed by law.

Passed August 2, 1949. HARRY M. VINCENT, President of Council.

R. M. Linder, Clerk. Approved: August 2, 1949. R. E. JOHNSON, Mayor.

Published in The Salem News Aug. 8 and 15, 1949.

LEETONIA GRID
TEAM TO BEGIN
PRACTICE AUG. 20

LEETONIA, Aug. 15 — Coach Harold Morrow announces that football candidates will assemble Wednesday, Aug. 17, at 1:30 p. m. at the high school building for physical examinations.

Equipment will be issued Aug. 19 and the first practice will be held at 2:30 p. m. Saturday, Aug. 20. Practice sessions will be held each evening at 6:30 beginning Monday, Aug. 22 and each Saturday at 2:30 p. m.

On Thursday evening, football players, coaches and members of the Booster club will have informal get-together and picnic in the Walnut street park. After refreshments are served, the group will go to the school building to see football pictures. Joseph Leeson, Jr., will be master of ceremonies for that evening.

Coach Morrow states that the entire line from last season had been lost by graduation. Edward Sullivan and Don Stouffer, two capable backs with experience, will be supported by these lettermen Richard Rose, Vincent Citino, Clem Tortora, Roy Davis, Dina Sporetto, Charles Carter, Ross Justice.

Inexperienced but showing possibilities are Joseph Guido, Michael Gallo, Samuel Tingle, Kenneth Warner, Glenn Smith, Willis Roller, Richard Carey, Robert Gibson, James Campbell, Charles Hedl, Harry Morris, Robert Sneddon, Ross Godd, Ted Campbell, Bernard Smith, Edward Donnelly, Buddy Eyster, Carl Mix and Jack Altomare.

Freshman with junior high experience include: Fred Culler, Harry Archer, William Fast, William Beiling and James Shafer.

The game scheduled for Oct. 21 with Cleveland Central has been cancelled and school officials are hopeful of filling the date.

Mr. and Mrs. Robert Weikart are the parents of a daughter born Saturday at Salem City hospital. Mrs. Weikart is the former Donabelle Weingart.

Mr. and Mrs. Culver J. Stewart spent the weekend with their daughter and son-in-law, Mr. and Mrs. William Gross at Dayton.

The men of St. Paul's Lutheran church have been invited to attend the annual corn and wienner roast of the Greenford Lutheran brotherhood this evening at the A. B. Williamson farm, on Route 165. Those desiring transportation are asked to meet at the church at 6:30 p. m. Rev. Thomas B. Homrighausen, pastor of Zion Lutheran church at Canton, will speak to the group at 8.

The Sue Bixler Missionary society of St. Paul's Lutheran church was entertained at the home of Mrs. Anna Floding Friday afternoon. Mrs. Floding was the leader of the topic "New Horizons for Liberia."

Preaching services will be held

at the Methodist church at 10 a. m. Sunday. Rev. and Mrs. K. E. Birney and family returned Thursday from their vacation in Maryland.

U. S. Girl May Start
Channel Swim Tonight

DOVER, England, Aug. 15 — Shirley May France expects to start her channel swim late tonight or early tomorrow.

Harry Boudakian, coach of the 17-year-old Massachusetts mermaid, said she might cross tonight to Cape Gris Nez, France, and start the battle with the swift waters of the English channel on the first good tide about midnight.

Conditions looked ideal for Shirley May's attempt to conquer the treacherous 21 miles separating England from the continent.

Tot Swallows Straight
Pin, Faces Operation

PHILADELPHIA, Aug. 15 — A 15-month-old Cleveland girl is under observation at Jefferson hospital today pending an operation for removal of a straight pin from her lung.

The girl, Susan Aiello, accompanied by her parents, Mr. and Mrs. G. P. Aiello, arrived here yesterday on an emergency flight from Cleveland.

The parents said their daughter swallowed the pin while playing on the floor of her home Friday.

The operation will be performed in the hospital's bronchoscopic clinic after the child has rested from her quick trip here, doctors announced.

Got \$183.51? That's
Your Share

WASHINGTON, Aug. 15 — (INS) — If all the money in circulation was divided equally, you would have \$183.51.

The Treasury in its latest statement on money in circulation estimated there was \$27,363,342.416 in use on July 31. Divide this out by the total population of the country to see what you get.

Last June 30, the per capita figure was \$189.41.

Two Ohio Beauty Queens
Chosen; One Can Compete

CLEVELAND, Aug. 15 — Ohio has two beauty queens but only one of them can enter the "Miss America" contest at Atlantic City Sept. 5 to 11.

Irving Weiner, president of the Bi-Rite super markets, sponsors of recent "Miss Ohio" and "Miss Cleveland" contests, said he received a telegram yesterday which said only one of the girls would be accepted.

Weiner said he understood both Elizabeth J. Giles of Chagrin Falls (Miss Ohio) and Florence Bondi of Cleveland would be accepted at the contest. Jack Gibson, who was said to have the contest franchise for Ohio, was unavailable for comment. So were the girls.

Mount Union Graduates
James Cope and Herbert Gross of Salem, and David Glass of Beloit have completed their work for graduation in the summer session at Mount Union college, Robert W. Tripp, college registrar, announced. The term ended Aug. 12.

They will not receive diplomas until formal commencement exercises next June, in accordance with the college's graduation policies, however. At that time Cope will receive the Bachelor of Arts degree, and Gross and Glass, the Bachelor of Science degree.

At Mount Union, Cope was a member of Sigma Nu fraternity. He majored in English and plans to teach. He is the son of Mr. and Mrs. Joseph Cope, 931 S. Union ave. Gross was a member of Sigma Alpha Epsilon. Majoring in biology, he plans to continue his studies in the field of medicine. He is the son of Mr. and Mrs. W. A. Gross, 1051 Newgarden st.

Glass is the son of Mr. and Mrs. Lewis H. Glass, Box 184 Beloit. He majored in mathematics and plans to teach. He is a member of Sigma Nu.

Put Out Two Fires
Two auto fires were quenched by firemen over the weekend.

At 10:25 p. m. Saturday the smashed car owned by William Humphry of R. D. 2, Salem, caught fire at the corner of Ellisworth and Railroad streets. The fire was confined to grease around the motor.

At 5:21 a. m. Sunday the interior of a car at the Knisley garage was found on fire and firemen quickly extinguished the blaze.

Jaycee Dance Held
Bill Nezbezh's orchestra furnished music for the first annual Junior Chamber of Commerce dance at the Saxon Country club Saturday evening. More than 50 couples attended.

Firemen Meet Tomorrow
Salem firemen will entertain other members of the Northeast Central district, Ohio Association of Fire Fighters, Tuesday at the Saxon Country club. A crowd of 150 firemen and guests is expected.

New Zealander To Speak
John R. Templin of Christchurch, New Zealand, will be presented as guest speaker to members of the Kiwanis club at their noon meeting Thursday in the Memorial building.

For transportation to the Stuebenville jamboree Tuesday members should call Gail Herron, president. An interesting program is planned.

Rotary To Hear Pastor
Rev. Charles Jack, pastor of the Boardman Methodist church will speak on "Economic Conditions in Europe" at the noon dinner meeting of the Rotary club in the Memorial building.

J. T. Darling is program chairman.

Joins Bliss Company
George Perrault, formerly with the Salem Engineering Co., has joined the E. W. Bliss Co. as sales manager.

Patrolman Slain
BY FELLOW OFFICER
CLARKSBURG, W. Va., Aug. 15 — (AP) — A Clarksburg policeman shot and killed a fellow patrolman early today in an accidental shooting on a downtown street, Police Chief E. F. Amsler reported.

Amsler said Robert Lee Fawley, 35, shot Chester Shack, 26, as the two were patrolling adjacent beats.

He said the shooting occurred when Shack apparently was playing a prank on his fellow officer at an intersection where they met.

Amsler quoted Fawley that Shack threw his blackjack at Fawley as he was coming around a corner. Amsler said it "appeared to be a prank to scare Officer Fawley."

Fawley pulled his .38 calibre service revolver and shot Shack through the heart. Shack staggered forward and his fellow officer caught him in his arms.

Fawley called headquarters and the emergency car. Shack was rushed to a hospital, but died in the operating room, Amsler related.

Fawley is being held on an open charge in the county jail.

IT WOULD cause a "lot of administrative trouble" to require contractors to take an oath concerning payments of commissions, Brig. Gen. E. M. Brannon, Army assistant judge advocate general, tells the Senate subcommittee investigating "5 per centers" in Washington. "Every time we wanted to sign a contract we would have to find a notary public," he said. (International)

Three Pastoral Changes
In Area Friends Churches

Three changes will be made in pastors of Friends churches in this district the coming pastoral year, which begins Sept. 1.

Rev. Charles E. Haworth, pastor of the Beloit Friends church for eight years, has resigned to accept the pastorate of the new First Friends church, Canton. He will be succeeded by Rev. Owen Glassburn of Pomona, N. C. Rev. William Atchison, pastor of the Canton church, plans to continue his education.

Revs. Larkin and Myrtle Allen Hadley, who served the Deerfield Friends church for eight years, went to Cleveland a few weeks ago to accept the pastorate of the Friends Community church. Rev. Charles Refus of Canton took their place. He is a graduate of Cleveland Bible college.

Rev. Harold B. Winn will begin his third year as pastor of the Salem church.

Names of the other pastors are Rev. Robert E. Mosher of Damascus; Rev. Russell Myers of Alliance; Rev. S. Sherman Brantingham of Winona; Rev. Paul Baxter of Quaker Hill, Sebring and Rev. Harley Bowerman of East Goshen.

President of Syria.
Premier Assassinated
DAMASCUS, Syria, Aug. 15 — (AP) — Syria's president and premier were shot yesterday in a lightning military coup whose repercussions thundered through the explosive Middle East.

Col. Sami Hennawi, 51, Syrian hero of the Palestine war, led the group of senior army officers who overthrew the government of Marshal Husni Zayim.

A sharp burst from a firing squad at the great Mazza military barracks ended the rule of the stocky little Zayim who had seized power four and a half months ago.

Zayim's bespectacled premier, Muhsen Bey Brazi, generally considered the brains of the regime, died with him.

Two Youths Injured
Fleeing Police Car
LISBON, Aug. 15 — Two young men, both of near Clarkston, were injured early Sunday morning when their car was wrecked as they attempted to escape a village patrolman, who was chasing them for reckless operation.

The two, Donald Hole, 22, the driver, and William Bell, 18, a passenger, were taken to Salem City hospital and treated for severe cuts and bruises.

Officer Leon Zandt was pursuing their car. Hole turned the lights off on his car. The vehicle rolled over several times at the village limits on Route 154 when it hit a bump in the road and was thrown out of control.

Discuss Ohio Edison
Strike Plans Tuesday
AKRON, Aug. 15 — (AP) — Officials of Ohio Edison Co. and representatives of the CIO Utility Workers of America will meet here Tuesday with U. S. Conciliation Service representatives.

Negotiations between the groups have been carried on several months but were broken off last week. A strike deadline of Aug. 21 already has been set by the union.

Break Into Store
LISBON, Aug. 15 — Sheriff Howard Clark was notified today of the breaking and entering of a grocery-service station in Glenmore early this morning.

The store, operated by Joseph Barnhouse, was entered by breaking the front door glass. Quantities of change, candy and cigars were taken.

Dies At Age 103
COLUMBUS, Aug. 15 — Mrs. Nancy White, 103, died today. She was born in slavery on a Virginia plantation.

Deaths

J. NEWTON YATES

J. Newton Yates, retired Salem mail carrier, died at 5 p. m. Saturday at Springfield.

He was the son of the late Dr. John J. and Margaret King Yates of Hanoverton. He is survived by one son, Raymond K. Yates.

Mr. Yates was appointed a substitute, Feb. 1, 1938, and a regular carrier Aug. 1, 1939. He was retired May 3, 1925.

For many years he was active in the Masonic lodge, having been a member for over 55 years.

Funeral service will be held at the Stark Memorial at 2 p. m. Tuesday, with interment at Hanoverton.

Friends may call at the funeral home this evening.

CURRAN INFANT

The infant son of Mr. and Mrs. Russell Curran of Walker, Va., died at 12:10 a. m. today in Salem City hospital. He was born here on Aug. 10. His mother is the former Betty Waybright of Sebring.

Funeral arrangements have not been completed.

3 ways
to judge...

THERE are three standards by which a Pharmacy may be judged: First, the appearance of the establishment; Second, the type of patron served; Third, the prices charged. We welcome comparison on all three. For service—security, bring prescriptions here.
